

Title V Workshop and SPARS Training

February 2009

The Air Quality Bureau will host six training sessions for clients wishing to use SPARS Web to submit their Year 2008 Title V Annual Emissions Inventory. In just three hours, SPARS users will learn how to: (1) Create a 2008 emissions inventory using their company's 2007 Emissions Inventory as a template; (2) Update the newly created inventory to reflect the 2008 emissions data; and (3) Submit the 2008 Emissions Inventory to DNR via the Internet.

Additionally, the Air Quality Bureau will hold two workshop sessions on Title V application forms and compliance as half-day complements to the half-day SPARS training sessions. The Title V Group will cover changes to the application forms, emissions calculations, periodic monitoring, CAM plans and a summary of common application deficiencies. The Compliance Group will review the semi-annual and annual Title V reporting forms and common errors found in the submittals.

Question and answer sessions will be held during all presentations.

The location will be the Air Quality Bureau's office at 7900 Hickman Rd., Suite 1, Urbandale, IA. Please contact Barb Stock at 515-242-5100 or at barb.stock@dnr.iowa.gov to make your reservations. You will be able to sign up to attend a SPARS training session and a Title V workshop session in one day.

Sessions will be held in the morning from 8:30 a.m. to no later than noon and 1:00 p.m. to no later than 4:30 p.m.
